

“Creating of Culture of Excellence”

Assignment:3

Course Code: CSE-325

Course Title: System analysis & Design

Submitted To: Supta Richard Philip

Senior Lecturer Department of CSE,city university

Submitted By:

ID : 171442520

Name : Md .Tofazzal hosen

Program : BSE in CSE

Semester : 7th

Date of assigned :03.07.2019

Due Date :

Assignment Name : Design Sequence Diagram for online shopping system.

A sequence A sequence diagram shows object interactions arranged in time sequence. It depicts the objects and classes involved in the scenario and the sequence of messages exchanged between the objects needed to carry out the functionality of the scenario. Sequence diagrams are typically associated with use case realizations in the Logical View of the system under development. Sequence diagrams are sometimes called event diagrams or event scenarios. A sequence diagram shows, as parallel vertical lines (lifelines), different processes or objects that live simultaneously, and, as horizontal arrows, the messages exchanged between them, in the order in which they occur. This allows the specification of simple runtime scenarios in a graphical manner.
